

GIMBEL EYE CENTRE®

*Invites You To An*

## INTERACTIVE OPTOMETRIC OPEN HOUSE

on

**Thursday, May 8, 2008 at 6:30 p.m.**

at Gimbel Eye Centre in Spectrum Hall, First Floor, Suite 119  
Market Mall Executive Professional Centre  
4935 – 40 Avenue, N.W., Calgary, Alberta

Dr. Marcella Birk will provide a two-hour presentation, which will include:

- Follow up care management of Implantable Corrective Lens (ICL) patients
- When to monitor a patient's post-operative complication versus when to notify the surgeon and send a patient back to Gimbel Eye Centre on an emergency basis
- Hands-on slit lamp evaluation of two post-operative ICL patients, with
  - Vaulting assessment – i.e., ratio of interlens space to ICL thickness
  - Observation of Toric ICL axis orientation
  - Evaluation of iridotomy/s status – i.e., if patent

**NOTE:** CME credits will be available.

We welcome your questions and comments on these topics or any others you may wish to hear about in the future. If you would like to attend, please **RSVP** on or before **Thursday, May 1, 2008** by contacting:

**Denise Dickson**
